#### Each bamboo has different color

Since bamboo knitting needles are made of natural materials, the fiber, color, and texture are different for each one. Koshitsu bamboo needles treated with high temperature and high pressure have different colors ranging from light to dark brown. In addition, the color may change with the years of use.

### Precautions for use and storage

Since this product is made of natural bamboo, please do not wet it with water or expose it to steam. When wet, the surface fibers of the bamboo needles become frayed and less slippery. To prevent mold, wipe with a dry cloth after use.

### Handle gently

Bamboo knitting needles are made of natural material, so if you use excessive force, the needle may break, causing scratches or dents. If you hold the needle too tightly while knitting, the needle may break, such as when the stitches are tight. Do not use excessive force and handle the needle gently.

# Laser engraving

The size for each bamboo knitting needle is laser engraved. The bamboo has a hard outer part and a soft inner part. In addition, because the density and hardness of the fibers vary from bamboo to bamboo, there are differences in the depth and color of the engraving.

BAMBOO KNITTING NEEDLES

#### **Product Concept**

In our pursuit of a more comfortable knitting experience, we have developed interchangeable circular needles with a beautiful, flowing shape.

We named them "Seeknit CURVE" because of their elegant shape. The new interchangeable circular knitting needles allow the yarn to glide smoothly, giving you the pleasure of knitting exactly the way you want.

#### **Product Features**

- Smoother and seamless connection between the body of the needle and the cord provides the smoothest transition of yarn for faster, effortless knitting.
- Two screw sizes, M1.8 and M2, simplify the selection of needles, cords, joints, and stoppers.
- Durable stainless steel metal fitting for easy maintenance.
- The cords are flexible yet strong. The swivel feature helps to keep the needle firmly in place and prevents knitting from twisting.
- The packaging has a simple design and is made of environmentally friendly FSC-certified paper.
- We offer a stylish gray color of the Seeknit Case especially for the Seeknit CURVE series.

# Koshitsu

Koshitsu are bamboo needles with brown color. After going through our unique high temperature and pressure treatment, Koshitsu needles are carefully polished with natural plant wax. This special treatment gives the bamboo extra durability.

It also prevents the needles from warping. The surface treatment gives a comfortable and smooth movement of the threads and a warm touch.
